

PRODUCT ROUND-UP BOWLS

QT Dog (qtdog.com) offers the original Brake-fast bowl in Stainless Steel. The brake-fast bowl is designed to slow down the dog that eats too fast. It is veterinary recommended and helps prevent bloat. It is available in three sizes.

The Slow Feeding bowl of **PetRageous Designs** (petrageousdesigns.com), features a durable Melamine plastic base with a 4-cup capacity. It is part of its Metro collection. Chew Slow Feed bowls are available in 6-cup capacity and coordinate with the company's product offerings.

The **Messy Mutts** Silicone Feeder (messymutts.com) features a non-slip, silicone base that prevents damage to floors and holds two stainless steel bowls in place. It contains messes with its wide lip and raised-edge border. It features high-quality, FDA-approved food-grade silicone that is BPA and PVC free. The durable stainless steel bowls can be easily removed for cleaning. The bowls come in medium and large sizes, and they are available in four colors: green, red, gray and blue.
